

## **ACS Group Signs Sales and Distribution Agreement with Zerma Machinery & Recycling Technology**

Schaumburg, IL – ACS Group (ACS), a leading global manufacturing and distributor of process cooling, material handling, and size reduction equipment, today announced that it has executed a 5 year exclusive representative agreement with Zerma Machinery and Recycling Technology (Zerma). Under the terms of the agreement, ACS has the exclusive right to purchase, inventory, promote or sell Zerma’s size reduction products within the United States and Canada.

Carsten Paeslack, President of Zerma, is thrilled about the new sales opportunities, “Zerma has developed one of the most comprehensive industrial shredder product lines in the world. These products combined with ACS’s very experienced and extremely well connected sales and marketing team, will open up new markets that we would otherwise no reach.” Carsten goes on to say that “Our respective visions of the future of the United States and Canada recycling markets match and we can foresee huge opportunities in this market.”

“ACS has had a nearly ten year relationship with Zerma and signing this agreement was a natural step in the progression of our two companies,” said Thomas Breslin, President of ACS Group. “We see tremendous growth and demand in the recycling market over the next 3 to 5 years and believe this partnership is a key element for ACS to serve this market.”

The ACS Group designs, manufactures, markets and supports one of the most comprehensive lines of auxiliary products for the plastics and other processing industries. Formed through a series of acquisitions, the ACS Group maintains an expansive product line, which includes size reduction equipment (granulators and shredders), material conveying equipment, metering and blending devices, heat exchangers (mold temperature controls units and chillers), drying systems, presses, and robots produced in 3 world class manufacturing facilities around the United States and Asia. These products are marketed under such recognizable brand names as AEC, Sterling Cumberland Engineering, Colortronic North America, Economizer, Walton/Stout and Wabash and Carver. For more information on ACS Group and their companies, please visit [www.acscorporate.com](http://www.acscorporate.com).

Zerma offers a wide range of size reduction equipment from small beside the press granulators, through large granulators and shredders for heavy duty, high throughput applications. Zerma also supplies pulverisers to convert pelletized material into free flowing powder for various applications. Ancillary equipment includes: in-feed and out-feed conveyors, metal detectors, bottle crammers, dust removal systems and granule blowing systems. Zerma is a world leader in the supply of granulation and sheredding equipment and remains committed to the ongoing development of its products. 5,000 machines are produced each year in three vast manufacturing buildings. For more information visit Zerma’s website at: <http://zerma.com>.
